About us

Blue Arrow Latam are HR consultants specialists in key profiles recruitment for companies in Latin America and the United States of America.

In 1994 we start activities in Buenos Aires, Argentina, specialising in banking and finance. We currently cover a wide range of business sectors.

In 2001 we expanded to the Latam region and also incorporated new sectors of expertise. Since 2008 we also operate in Cancun, Mexico.

We are currently developing a "STEM & HEALTHCARE" recruitment team within the Latam region to meet the demand from companies in the United States.

:: STEM: Science, Technology, Engineer and Mathematics.

:: HEALTHCARE: Medicine, Biotechnology, Nurses, etc.

Here we lead an open network of HeadHunters. Our aim is to make contact with qualified recruitment professionals who wish to join our project.

What do We do ?

We conduct external recruitment processes, selecting key profiles for our client companies in the Latam region and the U.S. We manage both English and Spanish procedures.

We use technology and networking to achieve an efficient and agile outcome.

Our goal is to identify, assess, and motivate high performance professionals capable of making a difference.

Blue Arrow Latam enables our business customers to find the ideal professional to fit their needs.
